B. Documented information package:

Our documentation kit contains sample documents required for API Q2 certification as listed below. All documents are in MS-Word/Excel files and you can edit them. You can make changes as per your organization's need and within few days your entire documents with all necessary controls will be ready. In the API Q2, documented information (procedures, SOPs, etc.) are required a few places only. But for making the system better, we have provided many editable templates from which a user can select templates as per their own requirement and make some minor changes in them to make own system. Two types of documented information are provided in this kit, as listed below:

- 1. Maintain documented information (Scope, Manual, etc.)
- 2. Retain documented information (Forms / Templates)

Under the main directories, further files are provided in MS Word/excel document as per the details given below.

1. API Manual:

It is a sample copy of API manual having clause-wise details of how API specification Q2 system is implemented. The API manual is tier-1 of API specification Q2 documents and covers list of procedures as well as overview of organization. This manual has covering company profile, amendment sheet, index, clause-wise details as per API specification Q2 for implementation, sample policy and organization chart.

Chapter No.	Subject	Page No.	Clause Reference			
			API Specification Q2-2 nd Edition
